

MISSION STATEMENT

At Action Electronics, we harness the power of innovative technology and draw on our award-winning industry expertise to deliver personalized, value-added services that keep your processes running seamlessly and effectively.

BENEFITS

Action facilitates lean manufacturing within your company by offering:

- Streamlined purchasing activity
- Less product handling
- Waste minimization
- Reduced paperwork
- Single point of contact
- Vendor consolidation
- Cost reduction along the supply chain
- Genuine components guaranteed

SERVICES

Action manages value-added services and multiple components of your supply chain. As a best-in-class provider of leading-edge solutions, we identify real cost exposure and deliver enhancement to your bottom line through our customized kitting, procurement consolidation, OEM-ready hardware kits, and unique engineered delivery systems.

Procurement

As a customized procurement services provider, Action dovetails seamlessly with your organization and operated as a complement to your internal resources. We will assist in a variety of acquisition consolidation tasks utilizing our team of supply chain specialists with over 60 years combined experience.

Kitting

We specialize in customized delivery and presentation that include the three steps of quality kitting: Acquisition, Grouping, and Seamless Delivery.

Inventory Management

As an industry leader, Action supports organizations of all sizes and business sectors with material and inventory management.

STRATEGY AND VALUE

Your business receives greater flexibility to react to various factors including market volatility, special orders, inventory obsolescence and small run, prototype program support. Our team of professionals provides you with the best service possible by refining and reconfiguring solutions as you grow and change. Action drives cost and complexity out of your supply chain, adding value and increasing your bottom line by streamlining the processes supporting your lean manufacturing objectives.

EXPERTISE

Integrating Action as part of your team provides reliability, responsiveness, and agility within your organization. We have 30 years of experience working with companies to optimize supply chains, reduce costs, balance inventory, and mitigate risk and part shortage. We consistently deliver a sustainable competitive advantage wherever you operate worldwide.

VISION STATEMENT

Setting a new standard of excellence for business leaders seeking comprehensive supply chain solutions.

GOVERNMENT & MILITARY SALES

Action Electronics is a value supplier providing supply chain integration to the U.S. Government for a wide range of military components, equipment and spare parts. Action provides direct distribution to government markets such as the **Defense Logistics Agency (DLA)**, **Naval Supply Systems Command (NAVSUP)**, and key Army Depot's across the U.S. In addition to government contract fulfillment, we provide Mil-SPEC packaging, labeling, shipping and military source inspections. We proudly work with all branches of the military in support of the brave men and women who have answered the call of duty.
